As Southern California's leading commercial real estate professional organization, we are your connection to the industry. We monitor legislation, offer networking events, professional development activities, and community involvement opportunities. In addition, we bring you together with the foremost national, regional, and local industry professionals, so you stay informed and connected to what's happening in commercial real estate.

NAIOP is an organization that relies almost exclusively on participation from its membership to manage the operations. To aid in the direction of the organization and ease the workload, NAIOP separates into several different committees that perform a specific function. Each committee is made up of a Chairperson (usually a member of the Board of Directors) and a varying number of NAIOP members depending on the objectives and workload of that committee. Each committee sets goals to attain for the year that work synergistically with the other committees to assist NAIOP in attaining its organization objectives.
